IF IT DOESN'T SAY BUSH HOG,® IT JUST WON'T CUT IT.™

PULL DIRT SCRAPERS

Bush Hog®'s new DSP Line of Pull-Type Drag Scrapers, with standard fixed axle or optional tilt axle, is ideal for moving large quantities of material, leveling, and finish grading. The DSP units come available in 8', 10' and 12' widths. DSP scrapers equipped with the optional tilt axle can do everything the standard axle does, as well as remove material on an angle for sloping, terracing and ditching. Material can be transferred by dragging it to nearby locations and raising the scraper to deposit the load. Surfaces can be graded and leveled by scraping material from high areas and allowing accumulated material to flow under the grader blade into lower areas. The DSP scrapers are designed for 70 to 125 horsepower tractors and have replaceable wear plates on the sides.

POST HOLE DIGGERS

Whether you need to drill holes for posts, tree plantings, structural support members, or other tasks, Bush Hog® has a post hole digger to meet your needs. Our three 2400 Series models fit both Cat. 1 and Cat. 2 tractors. Augers are offered in both standard and heavy duty versions in sizes from 6 inches to 24 inches depending on digger model. Tough soil penetration is no problem for the powerful Bush Hog® post hole diggers.

Augers... the heart of the digger

- Bush Hog® offers both regular duty and heavy duty augers in a variety of sizes, from 6-inch to 24-inch depending on the model
- 2" Round hub connection
- Replaceable drill teeth
- Heavy duty augers are equipped with double flighting for more cutting surfaces and faster, easier digging – especially in heavier soils

- Rugged gearbox construction
- Special alloy pinion gears and tapered roller bearings on both sides of each gear
- Shear pin driveline protection

HYDRAULIC POST HOLE DIGGERS

Hydraulic Post Hole Digger Features...

- Planetary Hydraulic drive features a high torque level to power the auger through the most demanding conditions.
- All augers are heavy industrial grade with 3/8" thick flighting. Sized in diameters from 6" to 36" (depending on model), these are excellent for all soil conditions and solid rock.
- The Farm and Ranch PHDHF Series features a selection of mounting brackets for skid steer loaders and front end loaders.
- The Commercial Grade PHDHC Series features mounting brackets for excavators, skid steer loaders, backhoes and front end loaders.
- All mounting brackets have a dual swivel feature that keeps the auger vertical while digging.

BACKHOES

Break ground, not your back!

Easily access those tight work spaces and get down to some digging. Bush Hog®'s new line of XD series backhoes are designed for tractors ranging from 18 to 100 horsepower along with skid steers and mini skid steers depending on the model. Perfect for digging footers, trenches and all general landscaping and construction needs, the XD series backhoes deliver value and strong performance to your operation.

For Tractors 18-28 HP and Mini Skidsteer

XD65C

XD65C Performance Features

Digging Depth (2 ft. flat bottom): 6'4"

Overall Operating Height (fully raised): 91"

Reach from Swing Post: 100"

Bucket Rotation: 180°

Swing Arc: 150°

Safety Features

Stabilizer Width: 72"

For Subcompact Tractors 18-30 HP

With a digging depth of 6 feet and an 8-foot reach, the XD65 gets down and dirty, breaking the frostline and finishing the job quickly.

ADSS

XD65

For Tractors 30-100 HP

For contractors and landscapers that need to dig deep, but not in their pockets, the Bush Hog® XD95 makes the grade. The large XD95 extends the usefulness of 30-100 HP tractors with digging capabilities of 9 feet deep. Trenching for footings and escavating to spec becomes quick and easy without the added expense of a single-purpose excavator. The digging bucket is built using AR400-strength steel, ensuring rugged longevity.

XD75

For Midsize Tractors 30-60 HP

Digging 7.5 feet deep and reaching 10 feet across, the XD75 breaks ground and keeps on going. With an excavator-style curved boom and easy-to-use controls, the XD75 is ready to handle any ground conditions from topsoil to clay and gravel.

The Bush Hog® digs even deeper with the Extendable XD95EL model. Capable of hydraulically extending an extra 24" to dig 11' 4" deep, the extendable dipper stick gives you the extra reach when you need it. When contracted, the bucket and dipper stick curl up tight to the boom for easy travel and compact storage.

Bush Hog uses Pioneer style ball type hydraulic couplings for all tractor auxiliary connections. Substitutions must be made at the customers expense. Bush Hog backhoes are designed for two line open center hookup.

GRAPPLES

Bush Hog's® AG, BRGR, and BGR-series grapples are built tough and help you make quick work of larger jobs. The AG and BGR grapples use an open bottom design to move brush and debris, rake, and dig without picking up dirt. The BRGR-series provides the operator with the grasp and hold abilities of a grapple, along with the storage capacity of a conventional bucket. Each model is designed to mount onto a universal skid steer mount. Let Bush Hog®'s grapples help you get a grip on your work.

AG Series Features

- Replaceable 5/8" plow points
- 27" opening
- Not for skid steer use
- Light weight and rugged design for today's compact tractors with a maximum of 40 h.p.
- Compatible with Skid Steer, John Deere, and Euro Quick Attach Systems

PALLET FORKS

The PF series pallet forks can be used in a variety of applications, from around the farm to nurseries to construction sites, the PF series forks will save you time and money. Quickly and conveniently convert your tractor mounted or skid steer loader with a universal skid steer frame into a material handler and expand the utilization of existing machines. With a lift capacity of 4,000 pounds, the PF series pallet forks will handle the lifting for you.

PF Model Features

- 48" Fork length
- 4,000 lbs. Capacity
- 1 ½" x 4" fork size
- Forks adjustable in 4" increments
- Step plate for easy access to cockpit of skid steer
- Models are compatible with Skid Steer, John Deere and Euro Quick Attach Systems

REAR-MOUNTED BLADES

We can help you out of a tough scrape!

If you need a tool for landscaping, snow removal, feed lot work, ditching, terracing, dam building, road reconditioning, or general farm maintenance, a Bush Hog® Rear Mounted Blade is always the answer. Bush Hog® offers models ranging from light duty to heavy duty in a variety of widths, all engineered and built to provide years of service under demanding conditions at a very reasonable price. So if you find yourself facing a tough scrape, turn to Bush Hog® for performance you can count on!

Whether you're a homeowner, farmer, landscaper, or contractor, Bush Hog® has a blade for every job and every level of duty.

COMPACT REAR BLADE (CRB)

Bush Hog®'s compact rear blades are the ideal choice for light duty landscaping, driveway maintenance, or snow removal. These light duty blades are rated for use on two-wheel drive tractors up to 24 PTO horsepower and four-wheel drive tractors up to 15 PTO horsepower. The moldboard may be reversed for backfilling and angled left or right for use in a wide variety of applications. Tilting of the blade is achieved by adjustment of the tractor's 3-point hitch arms.

Available in 6 and 7-foot operating widths.

35 SERIES BLADE

Whether you are a budget-minded landscape contractor considering a blade for your jobsite, or a homeowner interested in landscaping or snow removal, the 35 Series has what you're looking for. These utility blades are rated for use on two-wheel drive tractors up to 35 PTO horsepower and four-wheel drive tractors up to 30 PTO horsepower and feature tilt, angle, and offset adjustments in both forward and reverse positions.

50 SERIES BLADE

Ideal for jobsites, landscaping, and homeowners, the 50 Series is the preferred choice for those who need a 50 PTO horsepower rated blade with the features and capabilities of a much heavier unit. Rated for a maximum of 50 HP 2WD or 40 HP 4WD, the 50 Series blades feature tilt, angle, and offset adjustments in both forward and reverse positions.

The medium-duty 70 Series Blades are designed for landscaping, road maintenance, and snow removal. These blades feature a heavy duty mainframe and high-strength, reinforced moldboards to ensure years of trouble-free performance. The 70 Series Blades are rated for use on two-wheel drive tractors up to 70 PTO horsepower and four-wheel drive tractors up to 55 PTO horsepower. These blades feature tilt, angle and offset adjustments in both forward and reverse positions.

91 SERIES BLADE

The rugged construction of the 91 Series Rear Blades make them ideal for a wide variety of applications, ranging from general road maintenance to ditching and terracing jobs.

These blades are recommended for use on two-wheel drive tractors up to 90 PTO horsepower and four-wheel drive tractors up to 70 PTO horsepower.

The 91 Series blades feature a number of tilt, angle, and offset adjustments in both the forward and reverse positions for the versatility to handle a variety of tough jobs.

100 & 160 SERIES BLADES

The 100 and 160 Series Rear Blades are the ideal choice for heavy-duty grading chores around the farm such as road construction, terracing, dam building, and cleaning out feed lots.

These blades offer a choice of manual or hydraulic tilt, angle, and offset adjustments. Moldboard can be reversed for backfilling. They are rated for use on a wide range of 2WD and 4WD tractors, depending on blade width.

With their heavy-duty construction, the 100 & 160 Series Blades are engineered and built to meet the most demanding conditions.

100 Series Available in 8 and 9-foot operating widths.

160 Series Available in 8 and 10-foot operating widths Available in 7

and 8-foot

operating

widths.

141 & 181 SERIES BLADES

Let Bush Hog®'s new 141 and 181-Series Blades give you the strength and durability to pave a new way. Perfect for road building and maintenance, snow removal, terracing, backfilling, and grading, these blades can handle any scrape. These new series of rearmounted blades are available in sizes ranging from 7-feet all the way up to 10-feet and recommended for tractors from 110 HP up to 180 HP. Standard features include 3-point ASAE Category II and Category III hitches with Quick Hitch compatibility, 4-inch King Pin, 1/2-inch x 6-inch cutting edges, and a 19-inch moldboard height. These blades also feature manual or hydraulic offset, angle, and tilt adjustments. Other available options include heavy duty skid shoes, as well as, heavily constructed end plates.

225 & 300 SERIES BLADES

The heavy-duty design and construction of the 225 and 300 Series make them ideal for the most rugged road maintenance and grading jobs. The precision-formed moldboards are reinforced to withstand the most demanding conditions and can be reversed for backfilling. These top-of-the-line blades are rated for use on higher horsepower tractors and feature standard all-hydraulic controls

for ease of operation. The 225 and 300 Series are ready for heavyduty action and give you the ability and confidence to tackle the toughest jobs.

Available in 12 and 14-

foot operating widths.

SBX Series Box Blades

The Bush Hog® SBX Series Box Blades are exceptional tools when the job requires grading, leveling or back filling. The scarifiers have three adjustable height positions and replaceable heattreated tips for extended wear. Two 1/2 x 6-inch heat-treated, reversible and replaceable cutting edges smooth even the roughest ground. Rated for use on 2WD tractors up to 50 PTO horsepower and 4WD tractors up to 40 PTO horsepower, these box blades provide excellent value for the price.

MBX Series Box Blades

Bush Hog's MBX Series Medium Duty Box Blades are the ideal choice for use around the farm or by landscape contractors on the jobsite. These box blades are rated for use on 2WD tractors up to 65 PTO horsepower and 4WD tractors up to 55 PTO horsepower with a Cat. I or II Quick Hitch. They feature a heavy duty A-frame, heat-treated scarifier shanks, and a swinging tailgate to provide years of trouble-free performance. Whether you are grading driveways, cleaning out barns, or leveling a

construction jobsite, these medium duty box blades are sure to meet your needs.

RETRACTABLE SHANK BOX BLADES

RBX SERIES

RBX720 / RBX780 / RBX840

RBX Series Box Blades

Bush Hog®'s BBX Series of Box Blades is an excellent choice for a full-size box blade that can handle landscaping chores and other light duty tasks around the home or farm. Designed for small, compact and subcompact tractors with up to 30 HP (4WD) or 40 HP (2WD), the BBX Series is built to handle tough tasks at a very reasonable price.

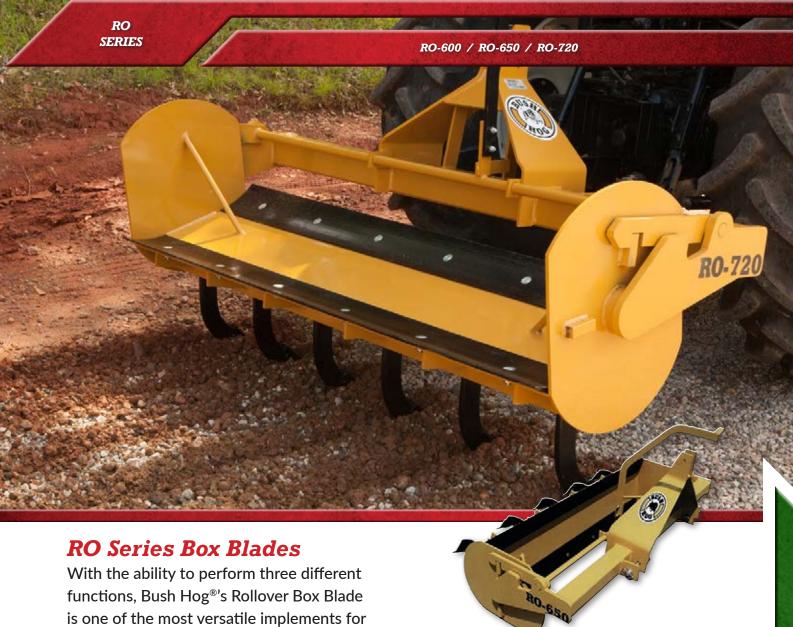

RBX Series Performance Features

- Heavy-Duty A Frame with Category 1 Quick Hitch
- Heat-Treated Scarifier Teeth
- Heavy-Duty Double Strap Hitch
- Reversible, Replaceable Cutting Edges
- · Heavy-Duty End Plates
- Strong Tubular Construction
- Deep 22" Box height
- · Powder Coat Paint
- Available in Major Tractor colors

ROLLOVER BOX BLADES

functions, Bush Hog®'s Rollover Box Blade is one of the most versatile implements for landscapers. In the first position the heattreated reversible cutting edge is ideal for grading the material. In the second position, backfilling can be easily accomplished. Finally, in the third position, heavy duty scarifier shanks give you plenty of ripping ability when breaking up compacted ground. What makes this tool more valuable is that all three positions can be changed from the tractor seat. These rollover box blades are rated for use on 2WD tractors up to 60 PTO horsepower and 4WD tractors up to 45 PTO horsepower.

ROAD GRADERS

Potholes beware! Bush Hog®'s line of Road Graders smooth out your ride and return your dirt, gravel or slag roads to like-new condition. Designed with two offset and angled scraper blades within a boxed frame, these Bush Hog® Road Graders cut off material from the high spots in your road and deposit the material in the low lying areas, thereby leveling the surface. Our RG series Road Graders are available in 5', 6' and 7' operating widths and are designed for use on tractors up to 50 horsepower. When you encounter the toughest road conditions and even more material needs to be cut and moved to level the surface, scarifier shanks with replaceable hardened tips are available on each Road Grader to rip the soil up to depths of 2-3/8". In addition to maintaining existing roads, these Road Graders can be used in countless other applications such as road building, landscaping, building and maintaining baseball fields and horse arenas, to name a few. Let Bush Hog®'s Road Graders level out your work areas!

Dual, replaceable and reversible $\frac{1}{2}$ " x 6" cutting edges.

Full length, replaceable skids.

RG Series Features

- Cat. 1 hitch, Quick Hitch compatible
- Strong tubular steel frame construction
- Offered in 5', 6' and 7' working widths
- 13-3/4" side skirt depth for moving large volumes of loose material
- Three-position shanks with replaceable hardened tips
- Dual, replaceable and reversible ½" x 6" heat-treated cutting edges
- Full length, replaceable skids
- Available in major tractor colors

HDRG Series Road Graders

The new Bush Hog® Heavy Duty Road Grader is available in 7-feet and 8-feet operating widths. The HDRG's heavy duty construction boasts a weight of up to 828-lbs., enabling it to tackle any grading job. The HDRG's design features all-welded construction, a max rating up to 90 HP, and two offset and angled scraper blades that are vertically adjustable. The vertical blade adjustment system provides the user the ability to adjust the cutting depth to compensate for blade wear and tear. Heat treated plow point scarifier shanks enable the HDRG to rip through most any earthen surface when grading driveways, fire lanes, and maintaining/building dirt or gravel roads.

Four-position hardened steel shanks

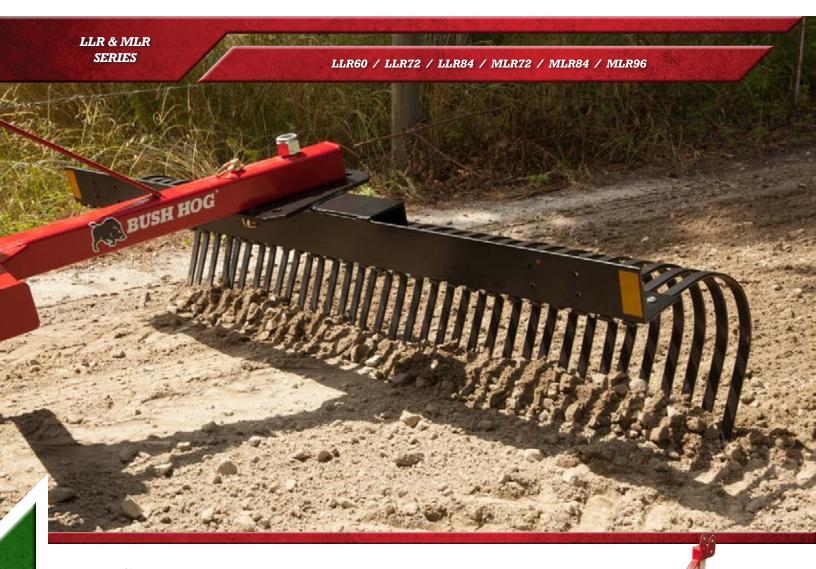

HDRG Series Features

- Category I, II Quick Hitch Compatible
- All Welded Steel Frame Construction
- Cutting Edge Height Adjustment
- Recommended for up to 90 HP

- Four Position Adjustable Scarifier Shanks

LANDSCAPE RAKES

Bush Hog®'s line of landscape rakes are the perfect tools for removing debris or giving an area that "groomed look." Perfect for jobs ranging from brush removal to grooming horse arenas, this tool is available in both a light duty model for tractors up to 30 PTO HP and a medium duty model for tractors up to 50 PTO HP. One-inch spacing between the heat-treated tines allows you to easily remove sticks, small rocks and other unwanted material. An optional gauge wheel is available for both models and the medium duty model offers a ratchet or hydraulic cylinder option to control angle adjustment. All units feature 360° pivot ability with angle adjustment of the rake, and a king pin size of 1-1/4 inches. With a Category I Std and Quick Hitch, and in sizes from 60 to 96-inch widths, there is sure to be a Bush Hog® Landscape Rake to match your requirements.

PULVERIZERS

After the heavy material has been removed, a Bush Hog® Pulverizer becomes the perfect tool to prepare a seedbed. The steel shanks break up compacted soil, while the heavy roller pulverizes large clumps and prepares the area for seeding. This tool is ideal for the professional landscaper/contractor who requires clean, level ground in one pass. Available in 60, 72, and 84 inch widths, with one or two rollers and featuring a Category I Std and Quick Hitch, there is sure to be a Bush Hog® Pulverizer to match your requirements.

PLUGGERS

The Bush Hog® Pluggers are literally designed to get to "the root of the problem." The 3/4-inch spoons provide excellent soil penetration, allowing nutrients and air to reach the turf's root system. A 1-1/4 inch diameter shaft with greasable sleeves supports the independent hubs. The frame is designed as a weight box so that additional weight may be added to increase down pressure when the soil is heavily compacted. All models feature a Category 1 Std and Quick Hitch and are rated for tractors up to 60 PTO HP.

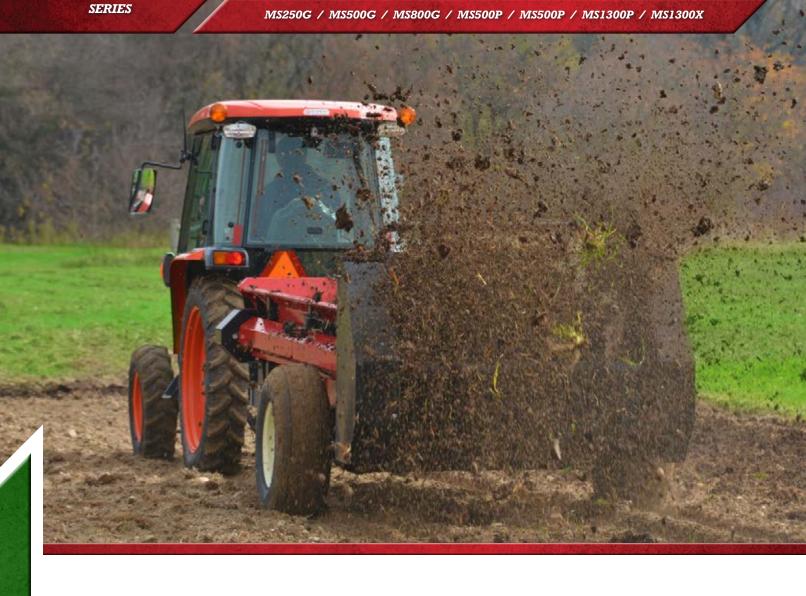

SPECIFICATIONS SUBJECT TO CHANGE WITHOUT NOTICE

FERTILIZER AND SEED SPREADERS

The Bush Hog® three point hitch fertilizer spreaders have bottom opening gates for accurate flow rates. Variable gate position openings and fine adjustments ensure material drops on different positions of the spinning disc. This produces a center, right and left pattern. The polyethylene hopper offers long lasting protection from the deteriorating effects of fertilizer. For further resistance to deterioration, the distribution fins are electroplated and the paint is powder coat for hardness and durability. The FSP models can also be used to distribute seeds. The FSP-500 has a weight capacity of 500 lbs, and the FSP-800 has a weight capacity of 800 lbs.

LANDSCAPE

Ground-Driven Manure Spreaders: For Vehicles Without PTO Capabilities

MS-G Manure Spreaders offer simplicity and reliability for applications where a PTO doesn't exist. Offering a full size range, MS-G ground drive units can be used with vehicles such as ATVs, UTVs or even lawn tractors. Traction implement tires are standard on GROUND DRIVE units to ensure the torque is there for a fine, consistent spread.

PTO Driven Manure Spreaders: For Vehicles with PTO Power

The PTO-driven MS-P Series manure spreaders offer increased power and spreading consistency combined with ease of use. PTO DRIVE models harness the power of your tractor to deliver capacities of 50, 80 and 130 bushels to your field. Connected by belt and pulley, the driveshaft and gear box deliver efficient power to the beaters.

XTREME CHIPPER SKID STEER WOOD CHIPPER

Get the most out of your equipment with the practical XC42S Skid Steer Mounted Wood Chipper. The hydraulically-driven XC42S is powered directly from the skid steer's external ports, providing plenty of chipping action. The XC42S is capable of chipping 4-inch diameter logs with its heavy-duty rotor and 2 hardened tool steel reversible cutting blades. The skid steer mount makes the XC42S easy to attach so you can switch from a bucket to chipper quickly and easily.
